KILLER WHALE IN LOFOTEN

WORDS ARE NOT ENOUGH, YOU HAVE TO BE THERE!!

And..., The season is now and until January.

Come on a killer whale safari in an inflatable! From inside the inflatable, just half a metre above the waves, you'll experience nature as you've never done before. OR; If conditions are right, and you're really adventurous, you can go into the water with the killer whales. We'll provide all the gear: dry suits, inner linings, masks and snorkels. We don't use flippers or flash cameras as this may frighten the herring and killer whales. Snorklers stay on the surface, and can experience killer whales in their element below the surface of the sea or you just watch from the boat.

WINTER AND DARKNESS IN FINMARK

As far North as you can be on any continent!

Discover the most extreme area of the European continent, wild and silent, surrounded by the crystal blue Barents Sea and learn about the mysticism of the samish people. Activities like reindeer sledging, farming the reindeer, snowmobile, ice fishing, and many, many more... Or go for exciting working days with the reindeer owner in January/February during the winter separation when sami people from Norway and Finland separate their herds. Sleep in their authentic sami tent.

Relax afterwards in a warm bath outside in 25 minus in darkness and see the stars above!!

Norway is different; silence, nature, people..., Norway is magic and in many cases still **Authentic**.

Authenticore offers Incentives and Conferences in Norway based on the philosophy that people are touched deeply by experiencing true authenticity. For more information info@authenticore.no
